

## Retro-Fit Kit and Instructions Roman Style Shade

**Warning:** Strangulations can occur when a child places his/her neck between the exposed cord and the shade material on the backside of the shade or when a child pulls the cord out and wraps the cord around his/her neck.

Follow these simple instructions to remove the operating cords and convert the Roman style product to a cordless shade. This kit works for both fabric or natural shade products.

Kit  
Components

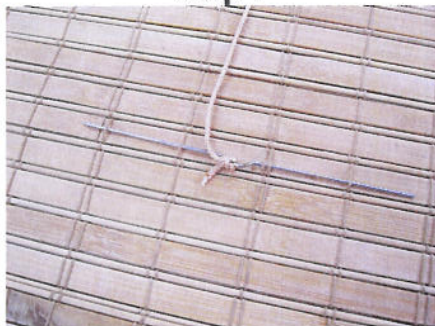

### Instructions

#### Remove operating cord from the shade

1. Untie the operating cords from the ring or eyelet at the bottom rear side of the shade
2. From the front of the shade, pull the cords through the locking mechanism
3. Dispose of the cords

Step 1

Step 2

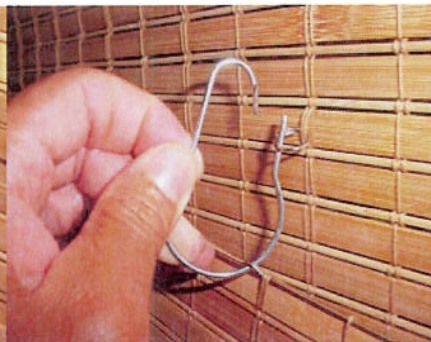

#### Attach the metal rings from the kit to the rings on the rear side of the shade

4. Open the metal rings
5. Starting from the lowest loop on the rear side of the shade, slip the open end of the metal ring through each loop or ring, on both sides of the shade
6. Continue to insert the metal ring through the smaller rings on the back as you raise the shade
7. When you reach the desired height, close the larger metal ring.
8. To lower the shade, simply reverse these directions. When the blind is fully lowered, the rings can be attached to the lowest ring and closed.

Step 5

Step 6
